

Our after-school programs are offered five days a week, from 2:30 p.m. to 6p.m with complimentary pickup service by our staff.

Specially designed to teach GRIT, the program engages future leaders in creative, conceptual problem solving that builds confidence and helps them succeed in school while providing a physical outlet that improves coordination, stamina and focus.

We love to help children with advancing thier education through new and resourceful learning such as Chess, Coding and other Special classes while also teaching the traditional Mathematics and English Language subjects to give your child a perfect and well-rounded educational and physical movement afterschool program.
